Moral of the Story ?...

A report just published in the Journal of the American Medical Association's Archives of Internal Medicine (Arch Intern Med. 2008;168[21]:2302-2303) reaches a startling conclusion. Breast cancer rates increased significantly in four Norwegian counties after women there began getting mammograms every two years. In fact, according to background information in the study, the start of screening mammography programs throughout Europe has been associated with increased incidence of breast cancer. "I had a longstanding pain in my shoulder which I had xrayed and the doctor told me I had the beginnings of arthritis. I decided to not take the anti-inflammatory drugs my doctor suggested and take Vegan Joint and Pain Formula instead. Not only did my pain go away after 2 days, but I believe the arthritis is no longer there as I stopped taking anything and there is no longer any pain." Rose, VIC

NEW Vegan Joint and Pain Formula

This product contains standardized extracts of numerous anti-inflammatory plants like devil's claw, yucca, boswellia, etc. Also contains Regensure®, a plant-based Glucosamine, powdered flax oil, and concentrated enzymes. Although this product was developed for sufferers of joint pain and osteoarthritis, users now report success with many types of pain.* We have had excellent personal and customer success with this product in the past with the old formula. The new formula still contains the anti-inflammatory herbs, but now have added Flax Oil powder for joint health and Hyaluronic acid, which is what cartilage is made of. The vegan glucosamine does not originate from shellfish and so is much more easily absorbed,

and much gentler on the stomach.

Ingredients:

Glucosamine 670mg
Total Proprietary Blend, 750mg of;
MSM
Devils Claw extract 1.7% harpagosides
Boswellia extract standardized to 65%
Boswellic and Organic Acid
Marshmallow Root 4:1 extract
Flax Oil Powder
Bromelain 600gdu per g
Papain 2M
Yucca Extract standardized to 40% saponins
Sarsaparilla Root 4:1 extract
Hyaluronic Acid 99%

120 v-caps \$55

Immunoplex

Extra strength immune enhancing and modulating formula. Contains only the highest quality research backed beta glucans, Manapol® and arabinogalactin as well as astragalus and *Lactobacillus sporogenes*. 150 serve, 141g tub \$165, 60 vcaps \$60

Candida Clean

Many people suffer from the diabolical Candida organism. This condition also called "leaky gut", "systemic yeast" and Candidiasis has become an epidemic in the last three decades. Candida kits and supplementation can be fairly effective but often very costly and quite cumbersome due to the large number of supplements involved. The great news is that we have formulated a very simple cleanse that is so much more user friendly and will be even more effective than previous. An added bonus is that you will save money too!

Ingredients:

The Candida formula contains Caprylic acid, Undecylenic acid, Cellulase protease, allisure powder, olive leaf extract, grapefruit seed extract, oregano extract and organic plant acids. It may be the most effective product ever released short of Diflucane but without toxicity or side effects of that drug, but much less expensive. Best to use concurrently with MegaFibe LT and use 30 days past last known symptom. Use MegaFibe LT for an additional 30 days.

90 v-caps \$110

What Makes Sun Warrior Protein so Awesome?

Sun Warrior Protein Sun Warrior Protein is totally raw, completely vegan, hypoallergenic, and delicious. Sun Warrior Protein is made with 85% pure protein and is easy to digest, making it one of the most powerful and effective superfood protein powders available. Sun Warrior Protein begins as raw, whole-grain brown rice, germinated to maximize the levels of bio-activity. Natural plant enzymes are introduced which digest almost all of the carbohydrates, leaving only easy-to-digest protein. The result is a wide spectrum of high quality amino acids which the body can easily absorb
